FAQs

- The degree program that I am seeking is offered at the University of Kentucky (UK). Should I attend IWU or UK?
 - Degrees that are in gray font and designated with an asterisk on Slide 2 are programs offered at both UK and IWU. To use your Employee Education Program (EEP) or Family Education Program (FEP) benefits, you will need to attend UK for those degree programs. If the nursing degree you are seeking is NOT offered at UK, you will likely be able to pursue your program at IWU and use your Nursing Tuition Contract benefit. Please email Andrea Wright at hospitalpayments@uky.edu in the UK HealthCare Fiscal Affairs office and request the Nursing Tuition Contract forms and ask when the Committee will review your request. The Contract requests are reviewed monthly.
- Can I work while I complete the program?
 - The nursing programs at IWU are designed for the working professional. Each student's situation is unique. Although assignments have due dates, they may be completed early if it is more convenient for the student.
